Education

Chaitanya Engineering College, Visakhapatnam.

Bachelor of Technology in Electronics and Communication

Nov. 2021 – June 2024

Visakhapatnam, Andhra Pradesh

Experience

Codegnan IT Solutions

Python Full Stack Intern

Oct 2025 – May 2026

Hyderabad, Telangana

- Developed REST APIs using Flask and implemented CRUD Operations.
- Worked with MySQL Database, SQL Queries, and backend routing.
- Implemented Authentication and Session Management.
- Used Git/GitHub for version control and deployment.
- Built Responsive Web Applications using HTML, CSS, JavaScript.

Dr. Pallam Setti Center For Research And Technology

Web Developer Intern

Oct 2024 – Jan 2025

Visakhapatnam, Andhra Pradesh.

- Developed responsive web pages using HTML, CSS, and JavaScript
- Implemented basic backend functionality using Python.
- Tested and debugged applications to improve functionality And Worked with Git for version control and code management.
- Built user-friendly interfaces with focus on usability and performance .

Projects

E-commerce Smart Cart System (Flask, MySQL) | Python, Flask, Mysql, HTML5/Css3, Java Script **April 2026**

- Developed a full-stack e-commerce web application using Python Flask, MySQL, HTML5, CSS3, and JavaScript.
- Implemented User Authentication, Session Management, and Role-Based Access Control.
- Built core modules including Product Catalog, Shopping Cart, Order Management, and Admin Dashboard.
- Developed RESTful APIs and optimized SQL Queries for database performance.
- Designed a Responsive User Interface for mobile and desktop devices.
- Used GitHub for version control and deployment workflows.

Detection of cyber attacks in the network using machine learning technique | Python,HTML/CSS,ML **May 2024**

- Designed and implemented a machine learning-based intrusion detection system to identify cyber attacks in network traffic.
- Preprocessed and analyzed network datasets by handling missing values, normalization, and feature selection to improve model accuracy.
- Achieved improved detection accuracy by optimizing hyperparameters and model performance metrics.
- Evaluated model performance using accuracy, precision, recall, F1-score, and confusion matrix.

Technical Skills

Languages: Python, JavaScript, HTML5, CSS3, SQL

Technologies/Frameworks: Flask, Bootstrap, React.js

Database: MySQL

Developer Tools: Git, GitHub, VS Code, PyCharm

Concepts: REST API, CRUD Operations, Authentication, Responsive Design, Deployment

Certificate

Data Analytics and Visualization Job simulation

Dec 2024

- * Project Understanding.
- * Data cleaning and Modeling.
- * Data Visualization and Storytelling.
